SOLE SOURCE

Hangar Door | B-52 Bomber

Matai was honored to receive the sole source award for the B-52 Bomber hangar door replacement at Barksdale AFB. This project required strong project management and coordination with subcontractors to successfully; design, manage, and deliver the project within the 191 day timeline.

Eglin AFB

IEC | SABER Support

Matai provided IEC with construction management and a mobile construction team to assist with the completion of 20+ projects at Eglin AFB.

Client testimonials

Jeff Morgan | Joint Base Charleston | Project Manager

MATAI, has completely revamped Production and Craftsmanship for the Best! They were very professional on all of our Weapon Station Projects! Wish they could stay longer or even replace them with another MATAI team to help maintain this progress!

Celso Torres | Federal Aviation Administration | Resident Expert

Matai recently completed an Electrical Line Distribution project at Ryan Airfield, Tucson, AZ. The Matai workforce was professional and demonstrated great team work. We look forward to working with them on future projects.

Patrick Benson | War Horses for Veterans | Founder & CEO

I would like you to consider Matai Services, LLC for your project needs. I have had a fantastic experience with them over the past few years for the services and support they have rendered to us. I therefore strongly recommend their services.

HOW WE WORK

Safety

We are responsible to get ourselves and our teammates home safely. All employees are OSHA 10 or OSHA 30 certified.

Teamwork

We are a team. Working together we focus on delivering excellence in every interaction/ project.

Excellence

"Excellence is not an exception, it is a prevailing attitude." - Colin Powell
